Risk Questionnaire

Stakeholders
5 / 5

Does this use case impact Verizon Employees?

☒ **Yes**
☐ **No**

Does this use case impact Verizon customers?

☐ **Yes**
☒ **No**

Does this use case impact government entities or Verizon government contracts?

☐ **Yes**
☒ **No**

Does this use case impact local communities or society at large?

☐ **Yes**
☒ **No**

Does this use case impact any part of the supply chain (e.g. materials, manufacturing, marketing, distribution)?

☐ **Yes**
☒ **No**

Harm-Benefit
10 / 10

Does this AI use case have any relationship to or influence over national security, national economic security, national public health or safety, or any combination of these topic areas

☐ **Yes**
☒ **No**
☐ **Unknown**
☐ **NA**

Quick Tips

- Either the Business Owner or Alternate Business Owner may complete the risk assessment
- You may answer some of the questions in this list, save it, and come back to continue. You can make changes to your answers before submitting this list. You should answer ALL the questions then you CAN Submit it.
- The answers to these risk assessment questions help to classify this model's risk level by the Model Risk Officer.
- If the use case is Material or has Ethical risk, all models associated with it will need to have one or more Independent Reviews prior to deployment.

> Does the AI use-case involve public institutions or societal infrastructure (e.g. telecom services, internet services, telecom tower placement, healthcare, or tele-healthcare access)?

☐ Yes ☒ No ☐ Unknown ☐ NA

> Will the AI influence communications, human relationships, social networks, or otherwise impact social relationships or norms?

☐ Yes ☒ No ☐ Unknown ☐ NA

> Does the AI use case involve direct environmental impact (e.g. physical development)?

☐ Yes ☒ No ☐ Unknown ☐ NA

> Does the AI use case involve an indirect environmental impact, such as control of resources or energy (e.g. automated lighting)?

☐ Yes ☒ No ☐ Unknown ☐ NA

> Can the AI solution cause harm (e.g. loss of life or limb, or significant bodily injury)?

☐ Yes ☒ No ☐ Unknown ☐ NA

> Can the AI solution cause direct or indirect mental harm or distress?

☐ Yes ☒ No ☐ Unknown ☐ NA

> Does the AI use case involve direct financial decision-making (e.g. loan approval, payments acceptance, collections, or credit scoring)?

☐ Yes ☒ No ☐ Unknown ☐ NA

> Does the AI use case involve indirect influences to economic well-being of Verizon customers or employees (e.g. promotional offers, discounts, marketing services)?

☐ Yes ☒ No ☐ Unknown ☐ NA

> Does the use case involve decisions that will have a long-term impact (i.e., > 90 days) or an irreversible outcome?

☐ Yes ☒ No ☐ Unknown ☐ NA

✓ Autonomy

6 / 6

> Within the context of the AI use-case, does the system provide all relevant information so that an end-user can make a fully-informed decision?

☒ Yes ☐ No ☐ Unknown ☐ NA

> Within the context of the AI use-case, does the solution allow the AI to take actions or make final decisions without human oversight and/or intervention?

☐ Yes ☒ No ☐ Unknown ☐ NA

> Within the context of the AI use-case, can users override decisions or opt-out of an offer/program/service?

☐ Yes ☐ No ☐ Unknown ☒ NA

>

If the AI use case involves direct interaction with humans, does the AI system disclose its non-human nature?

☐

 Yes

☐

 No

☒

 Unknown

☐

 NA

>

Within the context of the use-case, is the role of AI solution clear to those who are impacted? In other words, would the average user understand the role of the AI within the overall context?

☒

 Yes

☐

 No

☐

 Unknown

☐

 NA

>

Within the context of the use case, can a users accomplish the same task (even if less efficiently) without the use of AI?

☒

 Yes

☐

 No

☐

 Unknown

☐

 NA

>

Justice

4 / 4

>

Within the context of the AI use case, is the AI solution accessible and usable for a wide-range of individuals and groups (e.g. ages, genders, abilities, ethnicities)? In other words, does the use case include usability testing to ensure accessibility?

☒

 Yes

☐

 No

☐

 Unknown

☐

 NA

>

Within the context of the AI use case, can a user contest or appeal the decision or outcome in an efficient or accessible manner?

☐

 Yes

☐

 No

☐

 Unknown

☒

 NA

>

Can the AI solution be used to infer end-users' personal private information (e.g. home location, marital status, demographic characteristics)?

☐

 Yes

☒

 No

☐

 Unknown

☐

 NA

>

Could the AI solution impact personal liberties (e.g. bodily integrity, freedom of movement) or rights (e.g. access to housing, employment)?

☐

 Yes

☒

 No

☐

 Unknown

☐

 NA

>

Organizational Impact

5 / 5

>

Is the use case mission critical for any process or part of the business?

☐

 Yes

☐

 No

☒

 Unknown

>

Could a failure in the use case result in a high financial cost to Verizon?

☐

 Yes

☒

 No

☐

 Unknown

>

Could a failure in the use case result in a reputational cost to Verizon?

☐

 Yes

☒

 No

☐

 Unknown

>

Could a failure in the use case result in regulatory challenges to Verizon?

☐

 Yes

☒

 No

☐

 Unknown

>

Could a failure in the system result in unauthorized access to systems, data, etc.

☐ Yes ☒ No ☐ Unknown

▼ Generative AI

4 / 4

> Does the use case provide summarization, guidance, or information to stakeholders (e.g. customers, employees), such that they will rely on the accuracy of outputs without easily verifying correctness

☒ Yes ☐ No ☐ Unknown

> Are the end users external (e.g. customers)?

☐ Yes ☒ No ☐ Unknown

> Will the system be tailored or fine-tuned for this use case (e.g. prompted to focus only on a specific set of documents)?

☒ Yes ☐ No ☐ Unknown

> Does the use case involve generating non-text output (e.g. audio, images, video)?

☐ Yes ☒ No ☐ Unknown

Actions required for models registered to this use case

- ☐ Disengagement Protocol ⓘ
- ☐ External Review ⓘ
- ☐ Annual Certification ⓘ
- ☐ Ethics Review ⓘ
- ☐ Explainability Report ⓘ
- ☐ Transparency Report ⓘ
- ☒ Independent Review ⓘ
- ☐ Notice to Users ⓘ
- ☐ Bias Testing ⓘ
