Subject	Requesting you as a Feedback Provider in V Team Central

Hello **Name**,

As a trusted peer I frequently work with, I appreciate your opinion and would love some feedback based on our collaboration on the **XYZ project**. You can also reflect back on other interactions and conversations we have had working together.

I would like to formally request you as a feedback provider in V Team Central for my development and want to confirm you would be supportive and have capacity to complete that request within 10 days?

I am looking for constructive feedback that will help me improve, and any highlights of strengths that can be continued.

This will help me understand what I can improve and continue to build on based on our day-to-day interactions and our work together.

Thank you in advance!

Sincerely,
Name
