Engineering Excellence Timelines

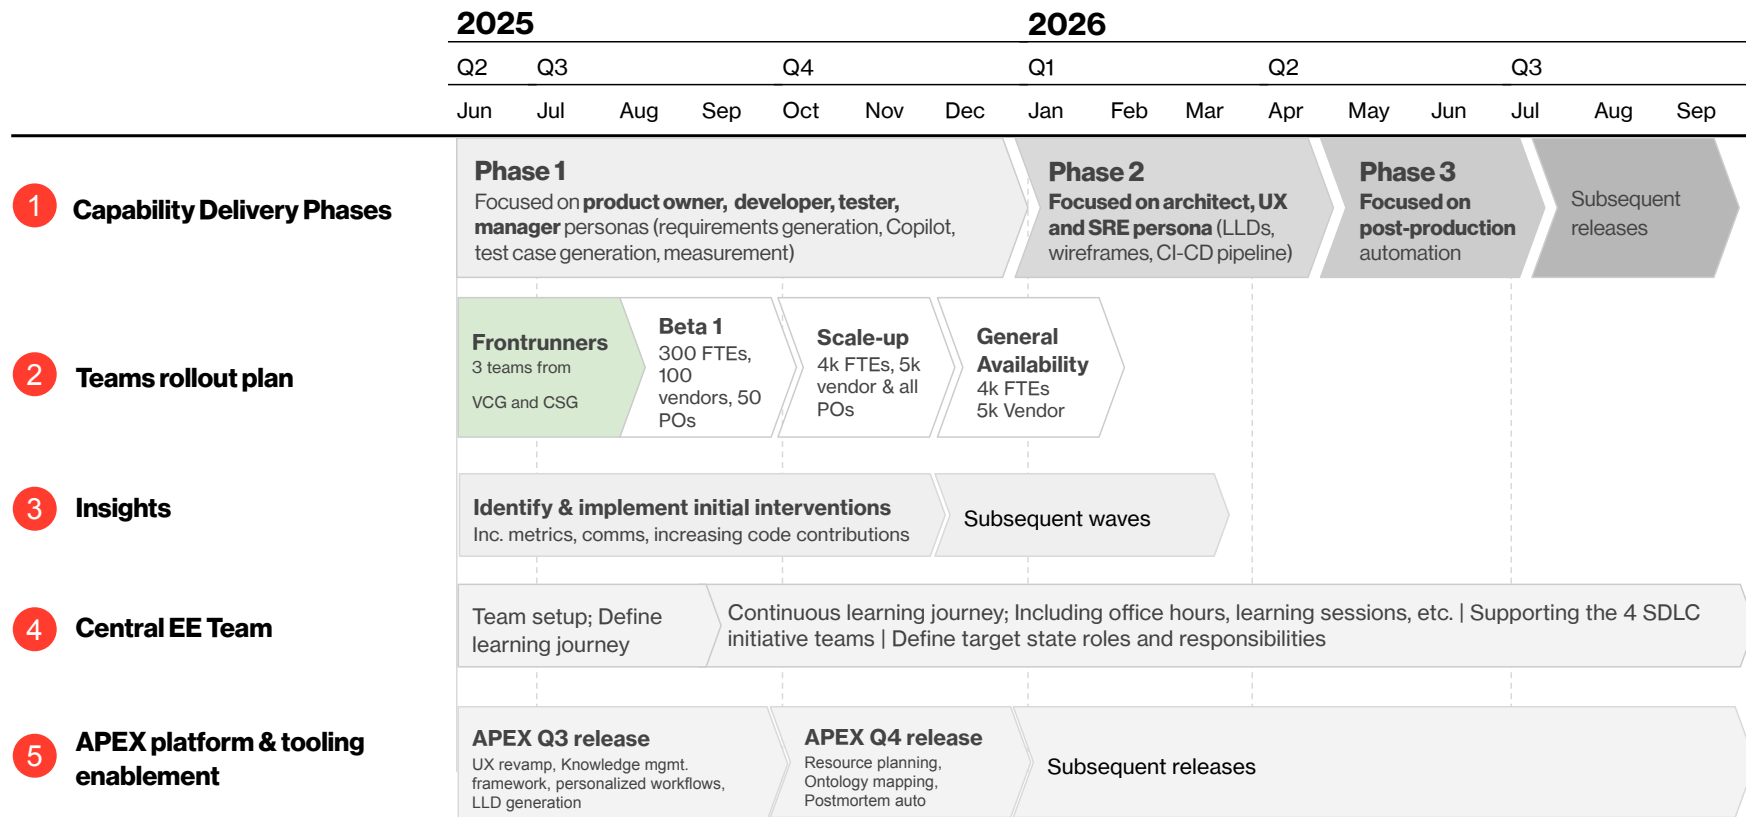

● Completed ● In-progress

Role based 'horizontal' release 1:
Development, Requirements & Testing

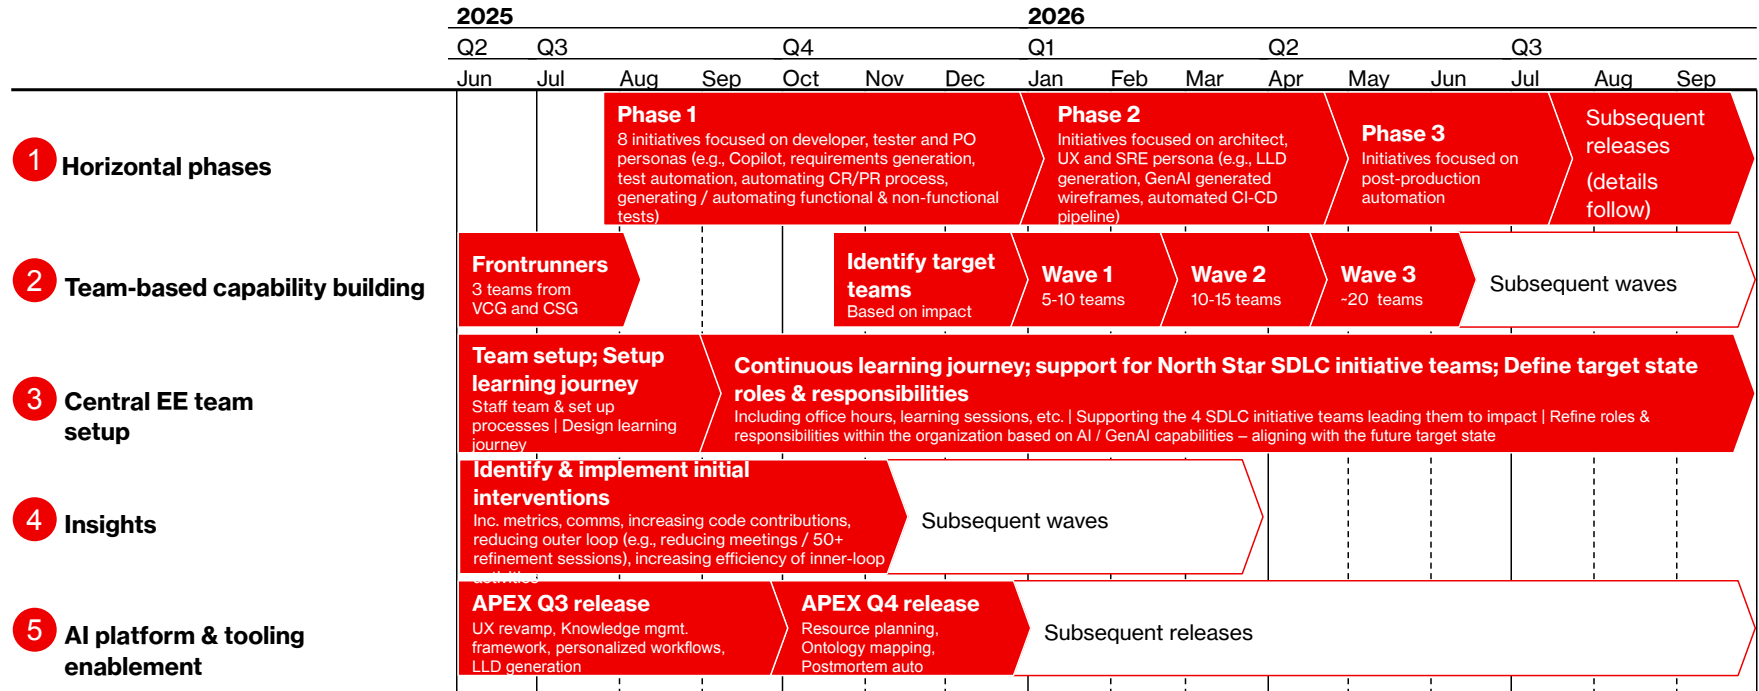

EE – Implementation plan: Overview

2 EE – Implementation plan: Overview

Details follow

2.1 EE – Horizontal phases: Capabilities will be rolled out in phases (targeting different personas)

Phase	Expected timeline	Target personas	Included initiatives	Key insights
Phase 1	June 2025 <i>(Already released)</i>	• Developers • Testers • POs • Managers	• Requirements generation • Code assist • Automated code reviews • Test scenarios & scripts generation	• Horizontals will be released in multiple phases, based on capabilities becoming available • Different releases will likely target different personas, while introducing enhancements to previously released capabilities • New releases are projected once every quarter
Phase 2	Late 2025	• Architects • UX designers	• Enhancements to previous initiatives • HLD / LLD generation • Wireframes creation automation	
Phase 3	Early 2026	• SRE • App support	• Enhancements to previous initiatives • Self healing capabilities in Prod • Automated RCAs
