Solution Blueprint

Quick Tips

- Technical Lead should submit model design documents (via URL) and answer the questions.
- The reviewers can request revision via the "Rework" button, and may specify the requirements in the "Comment" box. These are viewable in the Activity log.
- Click to copy this required [Solution Design template](#) for GenAI use cases.
- Please reach out to vz-cs-engram-genai@verizon.com for information on Cloud Security approval.
- If this model requires Independent Review, the Technical Lead should make sure that the independent reviewer (**Harish Arunachalam**) is given access to the Solution Design document.
- For a project that requires Independent Ethics Review the

Acknowledgment of Materiality*

- ☐ Based on the risk analysis, this use case and associated models require an Independent Review. Therefore you must have an Independent Reviewer engaged from this Solution Design / Design Review until they sign off during or after Pre-Deploy Review.
