2+2 Conversations

What is a 2+2 conversation?

A 2+2 conversation is an opportunity to engage with your manager in short check-in conversations focused on progress towards your goals and on feedback to help you perform at your best. Your manager will share:

- two comments on progress against your performance or development goals and
- two items to do more or less of to increase performance or advance development moving forward.

How do I record a 2+2 conversation?

You or your manager can input 2+2 conversations.

- Type “My 2+2 Conversations” into the Search Bar.
- Select Create 2+2. Your manager will auto-populate into the participant box.
- Add the date of your conversation.
- Attach relevant documents, if applicable.
- Add one or more topics.

Note: 2+2s can be recorded via the mobile app also.

The screenshot displays the 'My 2+2 Conversations' interface. On the left, a sidebar shows a 'Worker' profile and a list of conversations with dates (04/10/2023, 03/21/2023, 03/13/2023). A 'Create 2+2 Conversation' button is highlighted. The main area shows an 'Edit 2+2 Conversation' modal. This modal has fields for 'Participant' (marked with a red asterisk), 'Planned for' (with a date picker set to 04/10/2023 and marked with a red asterisk), and a 'Description' field with a rich text editor. Below the modal, the 'Manage Topics' section is visible, featuring an 'Add' button, a list of topics (Aurora, Project XYZ), and a 'Select Existing Topic' dropdown menu with 'Aurora' selected. A red box highlights the 'Add' button and the 'Select Existing Topic' dropdown.

2+2 Conversations

Why are 2+2 conversations important?

Ongoing discussions with your manager give you the opportunity to align on priorities and help you perform at your best. 2+2 conversations support continuous, transparent feedback to help you achieve your goals, develop, and grow.

Are 2+2 conversations required?

2+2 conversations are optional, but encouraged, as a way for you and your manager to regularly connect on your performance and development throughout the year. Work with your manager to determine the best way to use 2+2s as part of your ongoing performance and development discussions.

How often should I have 2+2 conversations?

2+2 conversations can take place at any time and as frequently as desired. It is encouraged that you and your manager have 2+2 conversations at least once per quarter.

Additional Information

- 2+2 conversations won't pull into your Performance Review in V Team Central, but may be referenced by you and your manager in the comments section.
- 2+2 conversations will not automatically link to your Development Actions but the notes from these conversations are a great starting point to think about what Development Actions to focus on and any updates you may want to make.
- You can edit a prior 2+2 if needed.

What is a topic in a 2+2 conversation?

Topics allow you to track different subjects from your 2+2 conversations. When you record a 2+2, you can add a new topic or select from your existing topics.

When existing topics are selected, all previous notes are carried over as well. You should not delete older content, but rather add to it. Any updates made to these notes will also be reflected in previous 2+2 records that include the existing topic.

You can add notes in the My Notes section that are visible only to you, or in the Shared Notes section which are visible to you and your manager. You can later view your 2+2 conversations by topic or by date.

Note: When creating topics, these should indicate a broad description of the 2+2 conversation topic. These should align with your goals and can be used in multiple 2+2 conversations. For example, topics could include effective communications, developing project management skills, implementation of [Project A], improved customer experience.

2+2 Conversations

How do I delete a 2+2 conversation?

- Type “My 2+2 Conversations” into the Search Bar.
- If you added a Topic to your 2+2, you will need to remove it before you can delete the conversation.
 - Select Edit on the 2+2 conversation that needs to be deleted.
 - Scroll down to Manage Topics to see the topic that was added.
 - Click the trash can icon to delete the topic and click Save.
 - Navigate back to the My 2+2 screen.
- If you did not add a topic, or once you have removed the topic, select the drop down arrow next to the Edit button on the 2+2 conversation you need to delete, and select Delete.
- If you would also like to delete the topic entirely:
 - Navigate to the Topics tab, select the drop down arrow next to the Edit button on the 2+2 topic you need to delete, and select Delete

The screenshot displays the V Team Central interface. At the top, the 'Manage Topics' section is visible, featuring an 'Add' button and a list of topics. A topic named 'Test' is highlighted with a red box, and a trash can icon is also highlighted with a red box. Below this, there is a section for 'Changes to this topic apply across all 2+2 Conversations.' with a 'Select Existing Topic' dropdown menu showing 'Test' and a 'Topic Name' field with a red star icon and the text 'Test'.

Below the 'Manage Topics' section, there is a table with columns 'Topics' and 'Action'. The table has one row with a blue background. The 'Action' column contains an 'Edit' button with a dropdown arrow. The dropdown menu is open, showing options: 'Edit', 'View', and 'Delete'. The 'Edit' option is highlighted.

At the bottom right, there is a section with two tabs: '2+2 Conversations' and 'Topics'. The 'Topics' tab is selected. Below the tabs are two buttons: 'Create Topic' (blue) and 'Archive Topics' (white with a blue border).

2+2 Conversations for People Leaders

What is a 2+2 conversation?

A 2+2 conversation is an opportunity to engage with your employees in short check-in conversations focused on how they are progressing against their goals and to share feedback to help them perform at their best. During this conversation you will share two comments on progress against performance or development goals and two items to do more or less of to increase performance or advance their development moving forward.

Why are 2+2 conversations important?

As a leader, the time you invest engaging with your employees creates a culture of trust, transparency and collaboration – and in turn, improves performance and produces business results. 2+2 conversations support continuous, transparent feedback to help employees achieve their goals, develop, and grow.

Are 2+2 conversations required?

2+2 conversations are optional, but encouraged, as a way to regularly connect with your employees on performance and development throughout the year. Work with your employee to determine the best way to use 2+2s as part of your ongoing performance and development discussions.

2+2 Framework	Sample Comments
Two comments on progress against performance or development goals.	- Ahmed made progress on their two goals - map standardization and order wireframes. - They need to begin work on their goal to create improvements on marketing use cases.
Two things to do more or less of to increase performance or advance development.	- A focus area is to organize more ideation sessions within the team next quarter. - They should improve skills specifically for complex web applications.

2+2 Conversations for People Leaders

What is a topic in a 2+2 conversation?

Topics allow you to track different subjects from your 2+2 conversations. When you record a 2+2, you can add a new topic or select from your existing topics.

When existing topics are selected, all previous notes are carried over as well. You should not delete older content, but rather add to it. Any updates made to these notes will also be reflected in previous 2+2 records that include the existing topic.

You can add notes in the My Notes section that are visible only to you, or in the Shared Notes section which are visible to you and your employee. You can later view your 2+2 conversations by topic or by date.

Note: When creating topics, these should indicate a broad description of the 2+2 conversation topic. These should align with your employee's goals and can be used in multiple 2+2 conversations. For example, topics could include effective communications, developing project management skills, implementation of [Project A], improved customer experience.

Additional Information

- 2+2 conversations won't show up on your employee's Performance Review, but you can reference them as you fill out the manager comments and performance summary.
- 2+2 conversations will not automatically link to your employee's Development Actions but the notes from these conversations are a great starting point to think about what Development Actions your employee should focus on, or any updates that may be needed.
- You can edit a prior 2+2 conversation if needed.
- Contingent workers and associates are not eligible for 2+2 conversations. If you create a 2+2 for a contingent worker or associate, you will need to delete this.
